

PR4 – On the Banks of Alqueva

Starting/Arrival Point: Rosário (Church of N. Sr.^a do Rosário – GPS: 38° 37.746' N 7° 20.801' W)
Distance/duration: 8.8 km – about 2.5 hrs
Degree of difficulty: easy

This trail runs next to the campsite and explores the surroundings of the village of Rosário. Although there are no relevant monuments on the way (with the exclusion of the Medieval Graves dating to the 10th-13th century– point 2), this trail is a beautiful immersion in the Alentejo landscape.

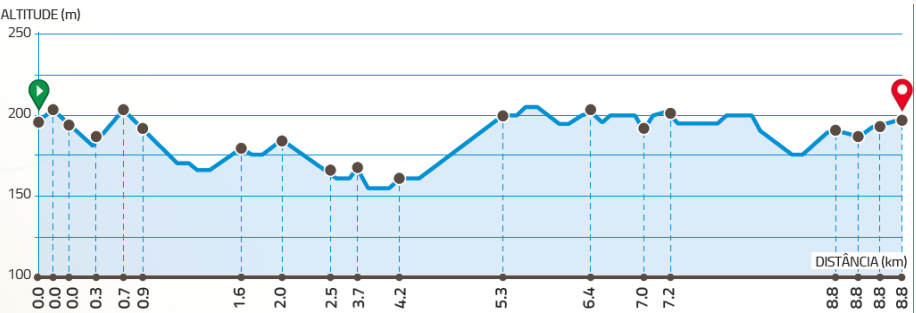

The route starts in Rosário, a typical rural village of Alentejo, near the **Church of N. Sra. do Rosário** (16th century). 200 m to the left of the path, you will see the **Mediaeval Tombs** (2), dating from the 10th to the 13th century, carved into the rock. For most of this route, the predominant scenery consists of Alentejo homesteads and plains stretching into infinity. And there is also the **Great Alqueva Lake**. The huge mirror of serene water is like balm to anyone passing by. It is not unusual to see anglers trying their luck in the waters of this huge lake. These points of interest, in combination with nature and the local people you may encounter on the way are what really make this walk so attractive.
